

Auto Viewer Extension - Version 1.0

This extension is a wrapper for Auto Viewer Flash Gallery by Felix Turner.
<http://www.simpleviewer.net/autoviewer/>

AutoViewer is a free Flash image viewer. AutoViewer is designed to display a linear sequence of images and captions. This extension for Quick 'n Easy Web Builder automatically generates all the necessary HTML code and data files for you!

Features

- Auto-Play allows you to view a gallery hands free.
- Displays image captions and gallery title as a text overlay.
- Intuitive image navigation via mouse.
- Keyboard navigation (Spacebar, cursor keys, 'Home', 'End' keys)
- Image pre-loading to prevent waiting for each image to load.
- Lightweight (34k).
- Cross platform - Windows/Macintosh/Linux (requires Flash 8 or higher).

Note: Images will not be displayed in design mode. You must preview or publish the page to see the final result!

Description of the Properties

Images

Add one or more images to the image viewer. Only jpg images are supported!

Display time

Number of seconds each image will display in auto-play mode.

Image padding

Distance between images in pixels.

Frame Width

Width of the image frame in pixels.

Frame Color

Specifies the color of image frame.

Background color

Specifies the background color of the image viewer.

Gallery XML file

Specifies the name of the gallery data XML file.

If you want to use multiple AutoViewer galleries on your website then this name must be unique, otherwise they all will use the same data!

Display the "Open Image in New Window..." right-click menu option

Specifies whether to display the "Open Image in New Window..." right-click menu option in the Flash context menu.

Pro Version

AutoViewer-Pro does not include the download link. Note however that this extension does not support the advanced customization that is available in the Pro version!

If you click the 'Pro Version' button then you can select the path of the pro version (autoviewer.swf). In that case this version of the viewer will be published instead of the free version.

You can purchase the AutoViewer-Pro version here:

<http://www.simpleviewer.net/autoviewer/pro/>

How to install this extension so it is available in Quick 'n Easy Web Builder?

You can use the Extension Manager (Menu->Tools->Extension Manager) to install this extension.

Alternatively you can manually copy all files from the zip file to the Web Builder extensions folder. Usually this folder is in this location:
/Documents/Quick 'n Easy Web Builder/extensions/

License agreement

This extension is not officially supported; it is made available as an extra service for the registered users of Quick 'n Easy Web Builder that find it useful. It is provided "AS IS" without warranty of any kind, either expressed or implied.

Requirements

Quick 'n Easy Web Builder 1.0 or higher.
Flash Player 8 or higher.
