

Random Image - Version 1.0

This extension displays a different image every time a user visits your website. Once your web page has been published and the browser will randomly display one of the specified images. You can also link each of the images to a different URL.

Description of the Properties

Images

To insert an image, click the **Add**-button. You can also assign a link to each the image. Click **Edit** to change the properties of an image or **Remove** to remove it from the list. In the **Image** field you must specify the (local) path of the image.

How to install this extension so it is available in Quick 'n Easy Web Builder?

You can use the Extension Manager (Menu->Tools->Extension Manager) to install this extension.

Alternatively you can manually copy all files from the zip file to the Web Builder extensions folder. Usually this folder is in this location:
/Documents/Quick 'n Easy Web Builder/extensions/
