

Pace Extension - Version 1.0

Pace is an automatic page load progress bar. Pace will automatically monitor ajax requests, event loop lag, document ready state, and elements on your page to decide the progress.

This extension uses pace.js created by Zack Bloom (JavaScript) and by Adam Schwartz (CSS). See the website for more details: <http://github.hubspot.com/pace/>

How to install this extension so it is available in Quick 'n Easy Web Builder?

You can use the Extension Manager (Menu->Tools->Extension Manager) to install this extension.

Alternatively, you can manually copy all files from the zip file to the Web Builder extensions folder. Usually this folder is in this location:
/Documents/Quick 'n Easy Web Builder/extensions/

License agreement

This extension is not officially supported; it is made available as an extra service for the registered users of Quick 'n Easy Web Builder that find it useful.

This extension may not be sold, rented, redistributed, sublicensed or modified without permission of the author.

This extension is provided "AS IS" without warranty of any kind including, but not limited to, warranties of merchantability, fitness for a particular purpose and non-infringement. In no event will Pablo Software Solutions be liable for any direct, indirect, incidental, special, exemplary or consequential damages, including damages for loss of profits, loss or inaccuracy of data, incurred by any person from such person's usage of this extension if advised of the possibility of such damages.

Requirements

Quick 'n Easy Web Builder 3.0 or higher

Javascript by Zack Bloom, CSS by Adam Schwartz

Extension created by Pablo.
