

## MediaElement.js Extensions (audio / video) - Version 1.0

This is a set of two extensions (audio and video) to wrap the functionality of MediaElements.js: <http://www.mediaelementjs.com/> MediaElements.js is an HTML5 <audio> or <video> player with support for MP4, WebM, and MP3 as well as HLS, Twitch, YouTube, Facebook, SoundCloud and others with a common HTML5 MediaElement API, enabling a consistent UI in all browsers. The video extension also supports subtitles!

### Auto play

Enable this option to automatically start playing when the page loads.

### Features

List of features to use in the player. It should be a combination of the following values (single quotes, comma separated):

'playpause', 'current', 'progress', 'duration', 'tracks', 'volume', 'fullscreen'

### Filename

Specifies the filename of the media file.

### Loop

Enable this option to automatically repeat playback of all files.

### Muted

Specifies that the audio output of the video should be muted.

### Poster

Specifies an image to be shown while the video is downloading, or until the user hits the play button.

### Subtitles

Configure subtitles. The files that contain the actual subtitle data are simple text files that follow a specified format, in this case the Web Video Text Tracks (WebVTT) format.

#### Filename

Specifies the filename of the WebVTT subtitle file (.vtt)

#### Language

Specifies the country code. For example: en, es, de.

#### Label

Specifies which language that subtitle set is for. For example: English or Deutsch

### Type

Specifies the media type.

For example: video/mp4, video/youtube, video/vimeo

### Volume

Specifies the startup volume for playback.

### How to install this extension so it is available in Quick `n Web Builder?

You can use the Extension Manager (Menu->Tools->Extension Manager) to install this extension.

Alternatively, you can manually copy all files from the zip file to the Web Builder extensions folder. Usually this folder is in this location:

/Documents/Quick `n Easy Web Builder/extensions/

### Requirements

Quick `n Easy Web Builder 7 or higher
